About Us

Hi! My name is Melanie Scott. I'm an ex-cop, qualified dog trainer, and yes I have PTSD. I wanted to provide a safe, welcoming dog training school for First Responders. The emphasis is on having fun, connecting with your dog and hopefully making some human friends along the way.

Group class levels:

Puppy class
Bronze
Silver
Gold

Platinum*
Ultimate*

Group classes focus not only on obedience but having fun.

Agility equipment, games, tricks with your dog and Rally-O exercises are just a few of the activities you can participate in.

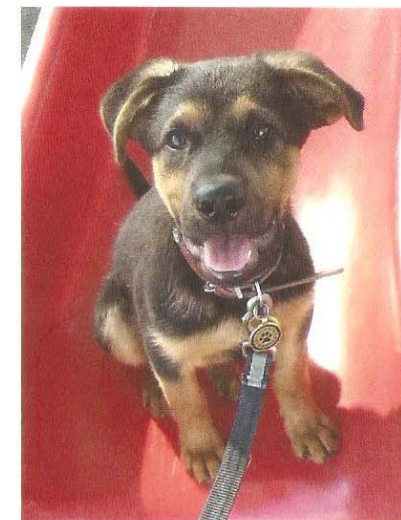

*Platinum and Ultimate classes provide Service Dog level training. In these classes you will learn more advanced dog obedience skills.

Our Services include:

Private in home consults
Service Dog training
Therapy Dog training

Private in home consults:

We come to you! We provide obedience training and advice on behavioural problems (eg chewing, digging, jumping up, excessive barking, mouthing)

Therapy Dog training:

We can tailor a program for you and your dog. Would you like your dog to help manage your anxiety, flash backs and nightmares? This service is provided by appointment during private consults. We assess your dog, it's suitability and develop a training program to fit your needs.

We service all areas of Melbourne for private training sessions.
